Chief, External Projects Section

Serial No. 4

50X1

1. A second keyer (Serial No. 4) has been received from the and is being forwarded to the laboratory under separate cover.

50X1

50X1

2. This new unit has been checked by the Operations and Training Division who need two units to meet current operational requirements. O&T advises that this keyer is an improvement over the first unit but needs some reworking to provide maximum reliability. It is requested, therefore, that this unit be examined and that necessary modifications be incorporated to achieve satisfactory field performance.

50X1

3. Should your examination of this keyer indicate performance is satisfactory please return the unit to us for forwarding to the Operations & Training Division.
